Market Opportunity/Product

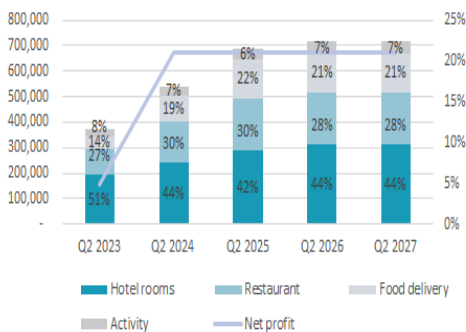

❖ North and Central Vietnam and Chonburi Region in Thailand are experiencing unprecedented growth. Thailand's Eastern Economic Corridor initiative will improve transportation and services, acting as a magnet for international and domestic travelers. At the same time, Vietnam's economy is growing at a very fast rate as well. Eco-conscious consumers, especially well-educated millennials and middle-aged individuals, desire extraordinary travel experiences that are rich and socially responsible - "Vacations with a Meaning".

❖ There are very few product offerings on the market for "one-stop" eco-friendly hospitality services. Lotus & Jasmine aspires to fill this market gap.

❖ We plan two setups in Vietnam and two in Thailand to create close synergies in both cost and revenue. Our integrated hospitality solution includes:

- ✓ eco-friendly lodging
- ✓ responsible sourcing of food for both dine-in and delivery services
- ✓ local community-beneficial activities
